

BioStability News

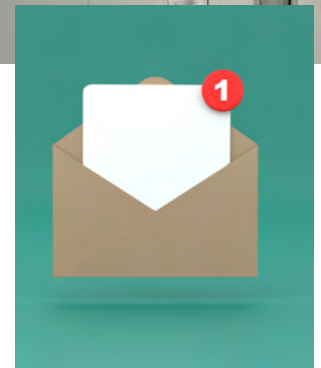

Precision Stability Storage Quarterly Newsletter

>>> Welcome to the first edition of our newsletter.

We will bring you the latest company updates, articles, and industry insights and inform you about upcoming events each quarter.

This first edition will give you a glimpse of what's ahead and how this newsletter will serve as a valuable resource to keep you informed and connected.

>>> New Service : LN2 Storage

We are excited to announce that we will soon **expand our services** to include **LN2 storage** capabilities for our valued customers in **Massachusetts and Florida!** Our team is working diligently behind the scenes to bring this storage solution to our facilities.

Following the successful implementation of LN2 storage at our Los Angeles, CA facility, we're excited to extend this capability to the East Coast.

>>> Maximize Space Efficiency: Offsite GMP Pallet Storage Solutions in California

Precision is excited to offer **Pallet Storage** to our services in **California.** The facility will be designed to adhere to the stringent demands of **cGMP standards**, ensuring a secure and compliant storage solution for materials across various temperature conditions, including **Ambient, 5°C, and -20°C.**

Exciting News From Our Florida Facility

>>> Facility Expansion

We're excited to announce the opening of our **newly expanded area** at our **Florida facility!**

- Two new rooms and enhanced storage capabilities.
- Temperatures at 5°C, 25°C/60%RH, and 30°C/65%RH
- Approximately 1,925 additional square feet of storage space (including a mezzanine)
- On track to open addition by May 31st.

We collaborate closely with our customers to develop their stability and storage plans. We specialize in designing custom storage spaces and offering tailored conditions to meet specific application needs.

>>> Prepare for Hurricane Season Implement Your Contingency Plan Today

As hurricane season approaches, it's crucial to have a solid **contingency plan** to safeguard critical assets. At our Florida facility, we understand the importance of preparedness, which is why we help customers with their contingency planning.

We have you covered if you need to **relocate inventory offsite** or seek **temporary backup storage** solutions. Our secure facility, constructed to the latest hurricane building codes with 6-inch solid concrete walls and ceilings, protects your assets during uncertain times.

Don't wait until it's too late—take proactive steps today to implement a contingency plan to safeguard your operations and ensure the integrity of critical material.

Climate zones with unique temperature and humidity profiles represent diverse environmental conditions worldwide. This variety in climates plays a significant role in the stability and efficacy of pharmaceutical products.

Understanding how these varying climatic conditions can affect drug characteristics is crucial in the pharmaceutical industry to ensure that medications remain safe and effective regardless of where they are stored or used.
